### About Me:

I live in Wisconsin and am a stay at home mom to two young boys. My oldest is 3.5 years and the youngest is 14 months. I've lived in Wisconsin most of my life and still hate Winter.

### Interests:

When the boys let me at the computer, I like to build sites with Drupal. My other hobby is photography but it's pretty rare for me to be able to get out and take pictures of anything but them. My biggest interest with websites is building a social networking site for my local community. From that, I've expanded into generalizing my work on Coulee Region ONLINE into modules and tutorials that anyone can use.

I've been told that this particular location was the 2nd highest grossing In-n-Out (after their Vegas location) in 2005.

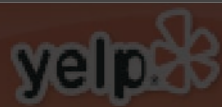

I believe it. The line is ridiculous and ends up backing out into the street often. It moves much faster than you would think, tho.

Parking situation is wack.

At first I was afraid, I was petrified. Kept thinking I could never live without Yelp by my side. And then I found your reviews, they gave me strength to step out the door, and now I'm calling all my friends and hitting the dance floor.

We have made you a list of places to go to after a hard day at school. There are limited places to dance in Irvine and Orange County, but they do exist. You may also want to take some trips to L.A or San Diego. As far as for getting your monthly dose of ETOH, there are many locally. Some that you can even walk to from home.

# Totally Unrelated to Neuro: Winnie or Topanga?

Binary poll by Carlos, 18 weeks ago.

So Joe and I were having a discussion about TGIF and the wonders of coming home on Friday night to two hours of quality family TV. This obviously led to a discussion of the hottest characters on each show. I contend that Winnie (Danica Mckellar) from Wonder years and the true love of the older Savage brother, is markedly better looking than Topanga (Danielle Fishel), wife of the uglier Savage brother. Joe says that any guy in their right mind would choose Topanga. What do you think?

Your vote was registered.

CARLOS, YOU ARE OBVIOUSLY NOT TAKING THIS SERIOUSLY! YOU HAVE TO PICK ONE. NOT TWO. ONE. THERE CAN BE ONLY ONE.

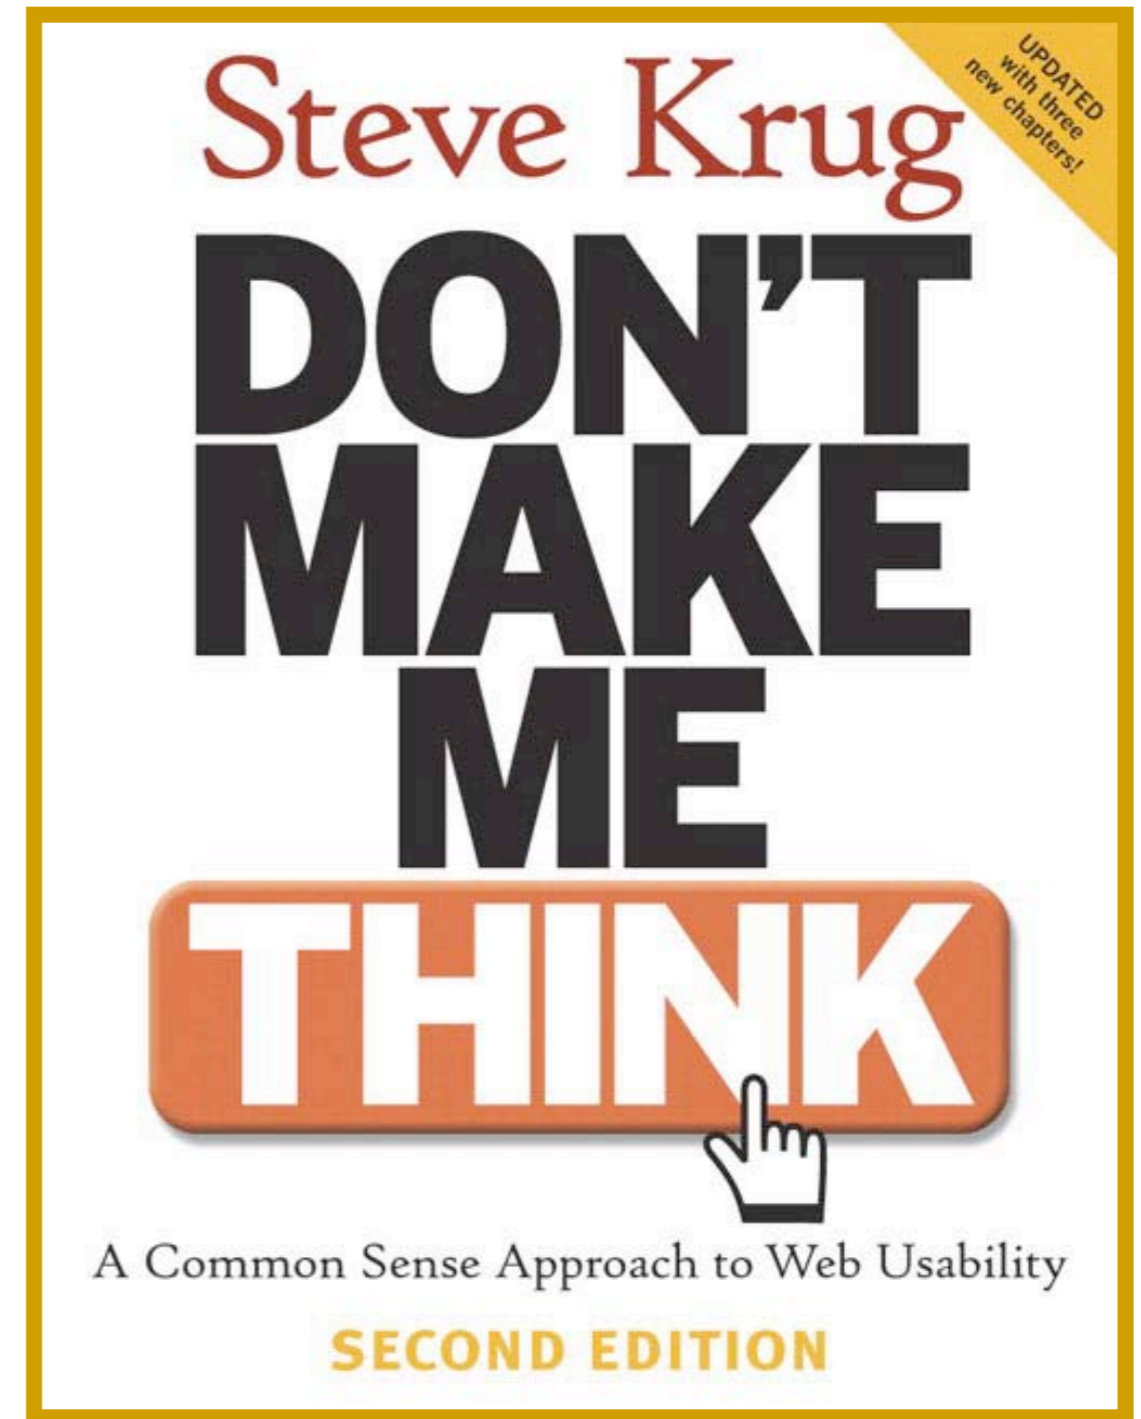

## Things I learned

- ✱ It takes a lot to attract users.
- ✱ It takes a lot to get the design you want.
- ✱ Drupal makes information organized *and* fun to use.

These cards are fantastic and are definitely perfect for medical students in the second year or those who are preparing for USMLE Step 1. All major topics are covered efficiently but with a good level of detail. The Organizational outline card before each organ-system block was an especially nice touch. Overall, these are a great resource, and I would highly recommend...

★★★☆☆ **Goljan Rapid Review is the way to go**

I bought it thinking it would be a good supplement for class and the boards but the reality is that there only so much time to review things. I recommend to put your efforts on memorizing what is in Goljan's book and do not overwhelm yourself with too much information- this is exactly what this product is- you do not need it.
